Thoughts and Prayers

Please keep our ailing saddle partners, Bird Dog Jake, Herd Tender, and Saddle Silks, in your thoughts and prayers.

RO I Recertification

The contract for the black powder shoot states, "It is required all State Black Powder Shootout Range Officers have completed the SASS Range Operations Safety Course within the last 3-5 years". TG SUMMIT MINUTES AND VOTING RESULTS

Thanks to Skinny for the following:

Item 5, the Stage/Match DQ for failure to adhere to the command of "cease fire" was removed from the agenda.

It was universally accepted that when a shooter willfully continues to shoot after the command "cease fire" they should be done for the day. Wording, in a clarification, will add verbiage to that effect. There is no change in the match DQ, but the additional verbiage will describe willful or a deliberate refusal to cease fire.

Changes will become effective on Monday, December 7, 2015

Voting Items RESULTS

To pass, an item must receive 66% of the votes For. Less than 66% and more than 50%, means the item failed but can be re-introduced and the next TG Summit as an agenda item.

MINUTES

Agenda Item 1

Should the rules be changed to allow the inclusion of "sub-gauge" shotguns such as 28 and 32 gauge for Buckaroos/Buckarettes? The ROC recommends a "YES" vote.

TG Discussion: There was no discussion and it appears everyone was in agreement.

Agenda Item 2

Should the MSV for retrieval of dropped/ejected ammo be deleted? Discussion points: Under the current rules, a shooter may stage ammo (including ON THE GROUND) for later retrieval during the stage. There is NO DIFFERENCE between reaching for rounds that have been staged purposely and rounds that land on a table after having been dropped or ejected? One still has to maintain muzzle control while reaching for the rounds in either case. As a side note, WBAS rules have allowed retrieval of dropped ammo/magazines for the past 6+ years with NO SAFETY violations for muzzle break or dropped firearms while doing so. The ROC believes that retrieval of dropped ejected rounds can be done safely, and if the muzzle breaks the 170 degree, we already have rules in place to assess a penalty. The ROC recommends a "yes" vote. A "yes" vote would remove ALL REFERENCES to "dropped/ejected ammo" from the rule books and associated clarifications (also the Lazarus Rule).
