Smoke on the Ridge III

July 21

IMPORTANT NEWS

Although it is SASS legal to transport long guns in your gun cart muzzle down, the Perry County Regulators will be enforcing a range rule that ALL long guns must be transported muzzle up with actions open. This will avoid shooters being inadvertently swept with the muzzles when the firearms are removed from the gun carts.

Also, a reminder to all shooters, ALL firearms carried to the firing line must be checked and cleared at the unloading bench whether they were used in that stage or not.

RO Courses

Jingles Jerr will be teaching the RO I and RO II courses at Cow Camp. If you would like to take these courses, please contact Jingles at mdjinglesjerr@yahoo.com or 410-833-3430. He needs a head count to have the proper supplies.

Duelist Shooting Categories

It was decided at Mid-Winter Ball that we only recognize the SASS duelist classes of Duelist, Senior Duelist, and Frontier Cartridge Duelist. If you have been signing up as any other duelist class, you will have to change.

Answer to Last Month's "What's The Call"

The answer is E) 'NO CALL'

At the CA SASS State championship, I witnessed Lead Dispencer do something I've never seen. He fired his first six-gun, drew his second gun, and had a squib with his first round, before anyone could shout "squib", he grounded the gun on a prop, drew his first six-gun, emptied it, reloaded it and completed the stage.... coolest thing I ever witnessed... I called it a "no call".... one of the two stages out of 12 he didn't win.

Hipshot

I also totally agree on the 'no call' on Lead Dispencer's quick-thinking action! No different (in my eyes) from a shooter discovering that s/he'd forgotten to load a firearm & loading "on the clock" rather than get misses and/or a procedural. (or having to run to a guncart to retrieve shotgun ammo!)

PaleWolf Brunelle

Coyote and I are at Founders Ranch and have discussed this as well. We see no difference between "engaging" or actually "shooting" the scenario as prescribed. The extra time is "The Cowboy Way"
If you were in a real gunfight, you sure as HELL would reload.

Hipshot

Applicable section of the rules (if any):

Incidents

As each shooter engages a course of fire, the Range Officer shall be prepared for any or all of the following incidents to occur and be expeditious in his or her necessary corrective action. The Range Officer shall never be tentative with a safety call. If a command given by the Range Officer is determined to be errant (e.g., if a squib call is determined to actually be clear), the shooter will automatically receive a reshoot.

Squibs

In the event a Range Officer suspects a squib load has been encountered, an immediate command shall be given to the shooter to make the gun safe and continue on with the next procedure. The Range Officer shall assist the shooter in making the gun safe by allowing them to "hand off" the gun safely, if necessary. Multiple squibs by a shooter will be cause for the RO to request the shooter to change ammo.
